Date of Event

Music/ Sound Agreement

The Marin Art and Garden Center is situated in a sound sensitive residential area. Renters and musicians must comply with the Town of Ross sound ordinance, which states that **NO amplification of music or voice, is allowed outdoors.** Exceptions may be made for ceremony only from the Events Administrator.

All music and entertainment must be pre-approved by the rental manager. Live groups may not contain more than 5 band members (including singer) and must use a minimal amount of amplification equipment. DJs are allowed indoors but renter must choose from our approved list of DJs. Style of music should be appropriate to the event and the location.

Music must be kept at a level of 65 decibels or less, and will be measured at specific locations on the grounds by the event manager or the security officer in charge. Speakers may not be faced out of windows or doors.

The renter and musicians will be given notice if the music is too loud. Failure to cooperate in turning down the music when requested and keeping it down, or any complaint from the neighbors will result in the music being terminated and the loss of your security deposit.

Having read the above, I agree to comply with this request. I will return this form signed by both myself and the musician under contract ONE MONTH before the event.
